

Learn Python Programming

This site contains materials and exercises for the Python 3 programming language.

In this course you will learn how to write code, the basics and see examples.

Python is a programming language supports several programming paradigms including Object-Orientated Programming (OOP) and functional programming.

Table of Contents:

Overview of articles and exercises:

Introduction

- [7 reasons to learn Python](#)
- [Why Python is Awesome](#)

Learn Python

- [Getting started](#)
- [Execute Python scripts](#)
- [Variables](#)
- [Strings](#)
- [Replace](#)
- [Join](#)
- [String find](#)
- [Split](#)
- [Random numbers](#)
- [Keyboard input](#)

Control structures

- [If statements](#)
- [For Loops](#)
- [While loop](#)

Data and operations

- [Functions](#)
- [List](#)
- [List operations](#)
- [Sort list](#)
- [Range function](#)
- [Dictionary](#)
- [Read file](#)
- [Write file](#)
- [Nested loops](#)
- [Slices](#)
- [Multiple return](#)
- [Scope](#)
- [time and date](#)
- [Try exception](#)
- [How to use pip and pypi](#)

OOP

- [Class](#)
- [Constructor](#)
- [Getter and setter](#)
- [Modules](#)
- [Inheritance](#)
- [Static method](#)
- [Iterable](#)
- [Class method](#)
- [Multiple Inheritance](#)

Advanced

- [Virtualenv](#)
- [Enumerate](#)
- [Pickle](#)
- [Regular Expressions](#)
- [JSON](#)
- [Read JSON file](#)
- [Decorators](#)
- [Web server](#)

Audio

- [Play Sound](#)
- [Text to speech](#)
- [Convert MP3 to WAV](#)
- [Transcribe audio](#)

Tkinter

- [Tkinter](#)
- [Tkinter button](#)
- [Tkinter menu](#)
- [Tkinter label](#)
- [Tkinter image](#)
- [Tkinter canvas](#)
- [tkinter checkbox](#)
- [tkinter entry](#)
- [tkinter filedialog](#)
- [tkinter frame](#)
- [tkinter listbox](#)
- [tkinter messagebox](#)
- [tkinter radiobutton](#)
- [tkinter scale](#)

Plotting

- [Matplotlib Bar Chart](#)

About

This is a collection of tutorials for the Python programming language. It covers many topics ranging from beginner level to professional level. I write about many things including web development, machine learning, web automation and various other topics.

However, if you want to **learn Python** or are new to the world of programming, it can be quite tough getting started.

There are so many things to learn: coding, object orientated programming, building desktop apps, creating web apps with Flask or Django, learning how to plot and even how to use Machine Learning or Artificial Intelligence. You may have many questions or perhaps you don't know where to start, the book below helps you master Python in no time.

It helps you get started with Python, and makes learning Python a breathe. On top of that, many exercises and a video course is included with the book, making learning great fun.
